Document Body

OVERVIEW — RENTED LINEN MODEL

Brightly operates on a rented linen model. All linen — sheets, duvet covers, pillow cases, towels, bath mats, and mattress protectors — is hired from an external linen supplier on a per-job basis. Brightly does not purchase, own, or store linen long-term. Each job is supplied with a delivery of fresh, professionally laundered linen from the hire supplier, and dirty linen is collected by the supplier at or after the clean. Cleaners are not required to wash, dry, or store linen.

LINEN HIRE SUPPLIER

Supplier: [Insert supplier name]
Contact phone/email: [Insert contact details]
Delivery lead time: [Insert lead time — e.g. 24 hours notice]
Delivery point: Property address or Brightly base (as arranged per booking)
Standard delivery includes: Sheet set (per bed), duvet cover set (per bed), pillow cases (per pillow), bath towels, hand towels, face cloths, bath mats (quantities matched to bedroom/bathroom count)

RENTED LINEN WORKFLOW — PER JOB

Step 1 — Before the Clean

Confirm linen delivery is scheduled with the hire supplier for this job (check job notes in Connecteam)
Confirm delivery contains correct quantities — 1 full set per bed, 1 set per bathroom
If linen has not arrived on arrival at property: call office immediately — do not begin the clean
Check delivered linen meets quality standards before use (see Linen Standards section below)

Step 2 — On Arrival: Strip Used Linen

Strip all used linen from beds: fitted sheets, top sheets, duvet covers, pillow cases
Collect all used towels, hand towels, face cloths, and bath mats from bathrooms

Inspect each item before bagging — note any visible stains or damage (see Stain & Damage Reporting)

Place all dirty linen into the hire supplier's labelled collection bag or hamper

Do NOT mix hire linen with personal items, host-owned items, or linen from another property

Step 3 — Make Up Beds with Fresh Linen

Make all beds using freshly delivered hire linen (see Folding & Bed Making Standards below)

Dress all bathrooms with fresh hire towels, hand towels, face cloths, and bath mats

If spare sets are delivered: fold neatly and stack in the designated linen cupboard

Never use linen from a previous delivery if fresh hire linen has been supplied

Step 4 — Linen Collection Point

Place the dirty linen collection bag at the agreed collection point (e.g. front door, laundry, or as briefed)

Confirm collection is scheduled for the same day as the clean (check job notes)

Do not transport dirty hire linen in your own vehicle unless specifically instructed by office

Record linen handover on your job completion form in Connecteam

LINEN STANDARDS — WHAT TO EXPECT FROM SUPPLIER

All hire linen must meet the following quality standards on delivery. If supplied linen does not meet these standards, do not use it — reject and contact the office:

White only — enables immediate visual cleanliness check; no colour-mixed linen accepted

Thread count minimum: 250TC (hotel standard) — no thin, rough, or worn fabric accepted

Towels: 500gsm minimum — full and absorbent; no thin, worn, or pilling towels accepted

Mattress protectors: waterproof, properly fitted — no staining or breakdown of waterproof layer

All items: no visible staining, no tears, no pilling, no odour upon delivery

If substandard linen is delivered: do not use it. Tag and separate, photograph, contact office before proceeding. Do not put substandard linen on a guest bed under any circumstances.

FOLDING STANDARD — HOTEL FOLD

Sheets

Fold in thirds lengthways, then fold in half twice

No visible edges on top — clean fold face outward

Stack in cupboard: neatest fold facing out

Towels — Bath

Lay flat, fold in thirds lengthways

Fold in half, then in half again

Display on rail or stack on shelf: fold edge facing out

Towels — Display Fold (Premium Presentation)

Fan fold or roll and tie with ribbon — host preference only

Confirm with host or job notes if display fold is required

Pillow Cases

Fold in half, then fold in thirds — sharp creases
Stack neatly in cupboard until made up on bed

BED MAKING STANDARD

Mattress protector: fitted tight, no wrinkles, corners secured
Fitted sheet: smooth, tight hospital corners on all four corners
Duvet / quilt: centred on bed, even overhang both sides
Pillows: 2 per person, placed in fresh pillow cases, plumped, positioned at head of bed
Optional finish: fold top of pillow case back 5cm for hotel-style presentation
Final check: stand at foot of bed — linen must be symmetrical, wrinkle-free, hotel-standard

STAIN & DAMAGE REPORTING

Brightly is responsible for reporting damaged or stained hire linen to the supplier. Follow this process every job when stripping used linen:
Any stained or damaged item: tag with a provided damage label (in your kit)
Note on label: item description, stain type or damage, date, property
Place tagged items in a separate bag clearly marked "DAMAGED / STAINED — Return to Supplier"
Record on your job completion form in Connecteam: item description, stain type, severity (minor / major)
Contact office same day if damage appears intentional, extensive, or potentially a guest liability claim
Do NOT attempt to treat, bleach, or launder hire linen. Do NOT discard hire linen under any circumstances. All items — including damaged ones — must be returned to the supplier.

ORDERING & LEAD TIME

Linen hire ordering and scheduling is managed by the Brightly office (Brendan Parker) for each property booking. Cleaners are not responsible for placing linen orders.
If you believe a booking is not covered by a scheduled linen delivery: notify office at least 48 hours before the clean
If linen is short (wrong quantity delivered): call office immediately — do not begin clean without a full set
If a regular delivery arrangement is in place for a property: check job notes for confirmation of delivery status

RECORD KEEPING

Mark linen received/collected on every job in Connecteam
Note any quality issues, shortfalls, or damage in the job notes field
Office reviews linen reports weekly and follows up with supplier as needed
