Consumables & Amenity Restocking SOP

Document Code:	B-ABNB-SOP-006	Version:	v1.0
Document Title:	Consumables & Amenity Restocking SOP	Status:	Phase 1 Active
Effective Date:	8 March 2026	Review Date:	8 March 2027
Author:	Brightly Operations	Approved By:	Director

Document Body

PURPOSE

This SOP defines the standard consumables maintained in every Brightly-serviced property and the process for restocking.

STANDARD CONSUMABLES — EVERY PROPERTY

Toilet paper: minimum 2 rolls per bathroom at job completion

Hand soap: 1 pump bottle per bathroom and kitchen

Dish soap: 1 bottle at kitchen sink

Sponge/scrubber: 1 at kitchen sink (replaced if worn)

Dishwasher tablets: minimum 5 in cupboard (if dishwasher present)

Bin liners: 1 fitted in each bin; 2 spares under kitchen sink

Paper towel: 1 roll in kitchen

OPERATOR-SUPPLIED AMENITIES

Some operators supply their own guest amenities (shampoo, conditioner, body wash, tea/coffee). These are NOT Brightly's responsibility to purchase. If supplied stock is low, notify the operator via WhatsApp and document in Connecteam job notes.

RESTOCKING PROCESS

Cleaners carry a standard consumables kit to every job

Top up from kit during the clean — do not wait until the end

Record any items used on the Connecteam job (for billing if applicable)

When kit is running low, notify head cleaner via WhatsApp — do not wait until you run out

ORDERING

Head cleaner is responsible for monitoring central stock levels

Reorder trigger: when any item drops below 2-week supply

All orders approved by Brendan Parker before purchase

Receipts submitted via WhatsApp to Brendan Parker same day for Xero reconciliation

CHARGING TO OPERATORS

Consumables are generally included in the clean fee. Where an operator has agreed to a consumables-only charge (e.g. guest amenities top-up), invoice separately via Xero with itemised quantities.
